

**New American Funding Selects Covius Document Solutions**  
*Large National Lender Will Use Template Library and Mailing Services*

**Denver—July 13, 2021**—Covius, a leading provider of technology-enabled solutions to the financial services industry, announced today that New American Funding has implemented Covius Document Solutions for its default servicing operations. Specifically, New American will use Covius’ 50-state template library and on-demand printing services to prepare and deliver compliant pre-foreclosure/breach letters.

“Servicers are experiencing pressures not seen in a decade,” said Pete Pannes, Covius’ Chief Business Officer. “A single mortgage may be subject to hundreds of federal and state laws and regulations. To help servicers navigate this complexity, Covius’ warranted template library covers servicing, pre-foreclosure and loss mitigation document requirements. And we do this at scale, routinely generating and receiving 2 million-plus document images daily and preparing and sending 1.5 million-plus letters and document packages monthly. We are pleased to support New American Funding’s default servicing operations and help them deliver critical borrower communications.”

Commenting on the solution, Roberto Moreno, SVP Default Services at New American Funding, shared, “We want to assure compliance as regulations change, and want to drive the best results for borrowers facing significant challenges in the economic fall out of the pandemic.”

This integration is part of Covius Connected, a broad and flexible strategic blueprint for enhancing our clients’ digital experience by increasing transparency, consistency, performance and ease of integration. All Covius Connected services are intended to be self-serviceable, flexible, scalable, fault tolerant and secure. Covius Connected simplifies the buying and onboarding processes and shrinks time to value and increases ROI for clients.
